

Help Us Meet The Need!

Scouting promises young men and women great outdoor experiences, friendship, opportunities to set goals and reach them, and experiences and responsibilities that will help them mature into strong, wise adults. **But most kids join Scouting simply because it's fun.** Our council properties haven't had major renovations in **more than 40 years.** It's time to fix-up, expand, and in some instances replace buildings and properties that have served us well.

All of our Council properties and facilities were built more than 40 years ago when the Council served only three counties and half as many youth.

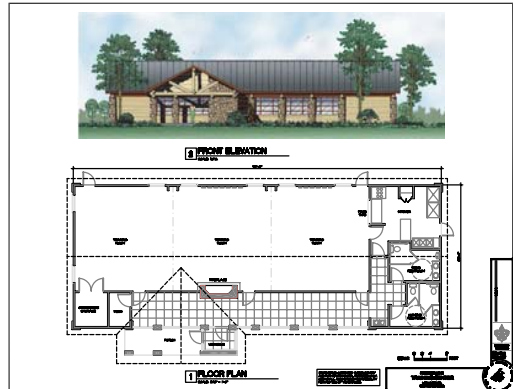

A new Scouting Development and Resource Center will replace the current Service Center. A climbing wall, Science, Technology, and Environmental Education Center and outdoor program areas will be included.

Camp Tamarack and Camp To-Pe-Ne-Bee will be modernized for safety, efficiency, year-round use, and to accommodate both genders and those with special needs. New four-season training centers, waterfront improvements, renovated lodges, and new program areas will be included.

Special funds will be established for future camp maintenance and development, the endowment fund, and to provide special program support for at-risk youth.

The LaSalle Council, B.S.A. serves over 16,000 youth in northern Indiana and southern Michigan with the help of more than 3,500 volunteers.

The *Trailblazing for Tomorrow Campaign* will raise \$3.975 million to ensure that our children have quality Scouting experiences. Please help with your contribution today!

Campaign Goal
\$3,975,000
