

## February 2, 2012

**Alert: Important Schedule Changes for Downtime/System Maintenance**  
**Alert: Please note that changes have been made to the schedule for MyBSA/MyScouting downtime and maintenance. The system will now be unavailable Saturday, February 4th, from 6:00 AM, CST ? 5:00 PM, CST. It will, however, be completely accessible the weekend of February 10th ? 12th.**

In an effort to keep you informed and to allow you to schedule work and resources accordingly we have attached a tentative schedule of system maintenance hours for the first half of 2012. On most weekends during the months of January through March systems availability will be impacted.

During these system interruptions the National office will be facilitating multi council mergers, consolidations and the creation of a new council structure in the state of Michigan. If you are a council employee, you will have no access to PAS and Fiscals applications during these hours. Some data in MyBSA may not be updated during this period; however your ability to use email should not be impacted.

If you are a BSA volunteer using MyScouting you will be unable during these hours to upload membership information to begin processing Internet Advancement and Internet Rechartering. Volunteers may continue online by loading the unit information prior to 9:00 PM, CST, on Friday. Submittals may still occur if the membership information was uploaded. Thank you for your support and cooperation as we continue to support our mission to ensure that all councils are highly effective in support of their units.

Below is the current tentative schedule.
